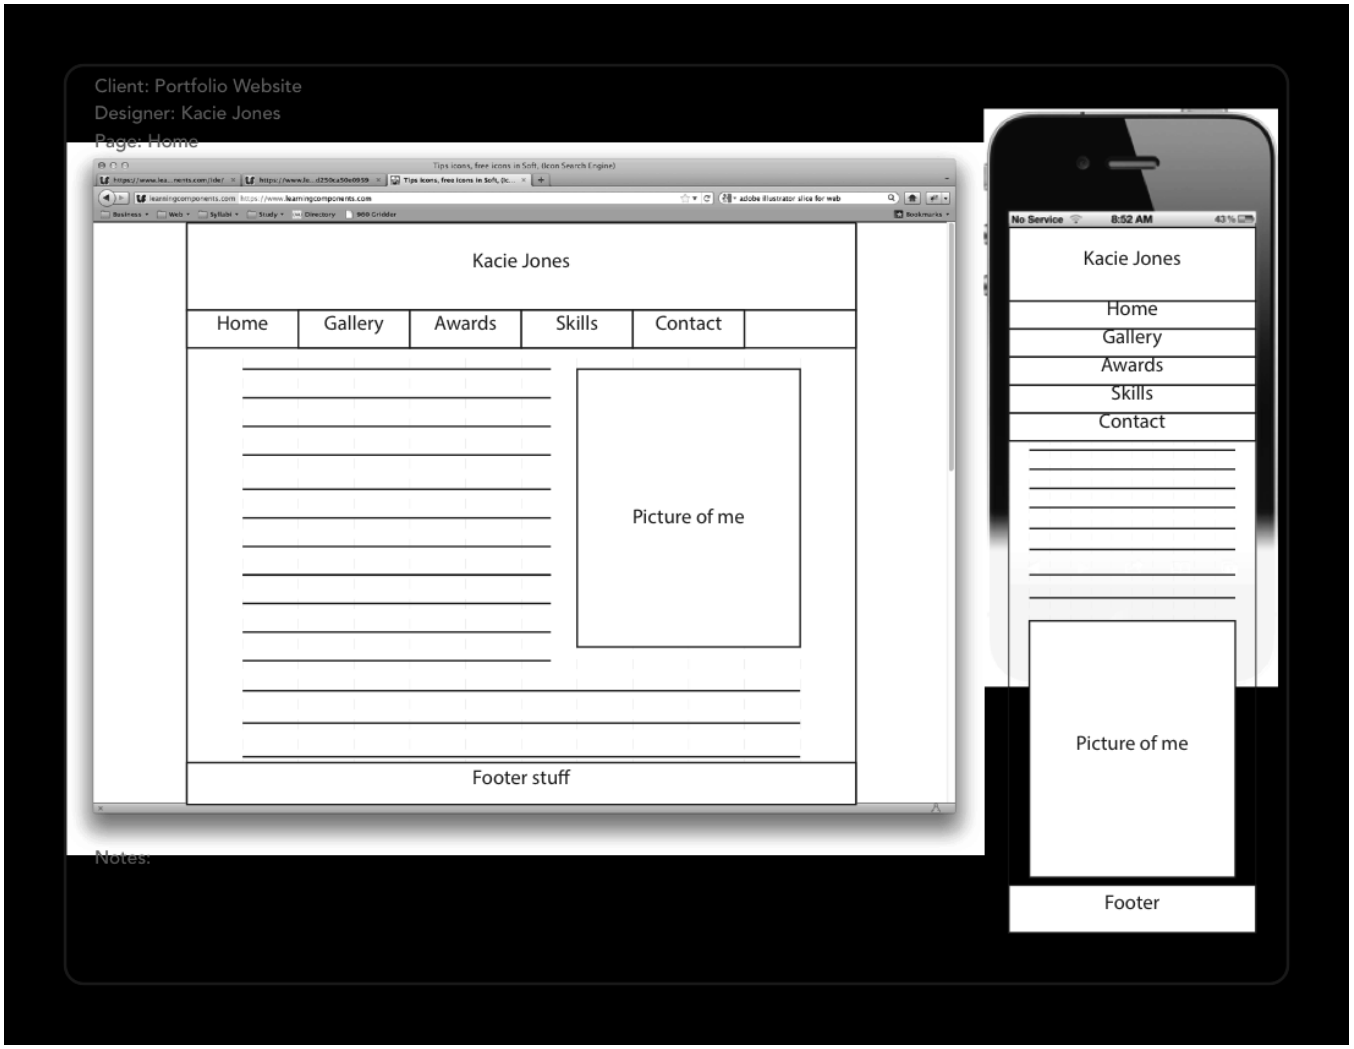
Portfolio Website Design

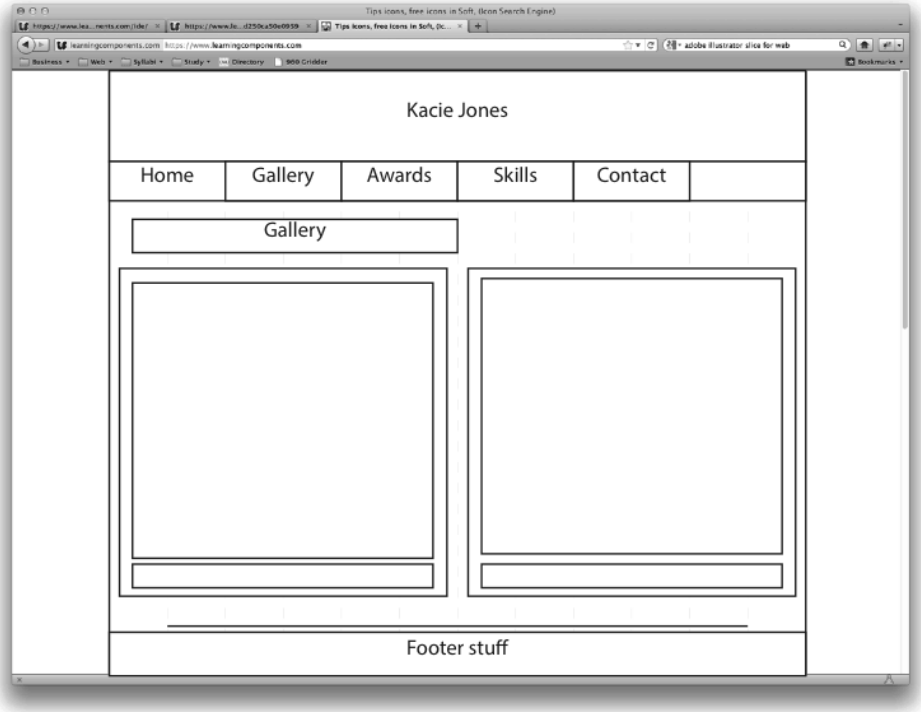
Site Goal: This site will serve as my portfolio and resume. It will include information about myself and my interests, as well as my skills and awards.

Audience: This will be available to potential employers and professors so they can better know my qualifications and me.

Desktop and Phone Wireframe: Here is an Idea of what the website will look like on each page.

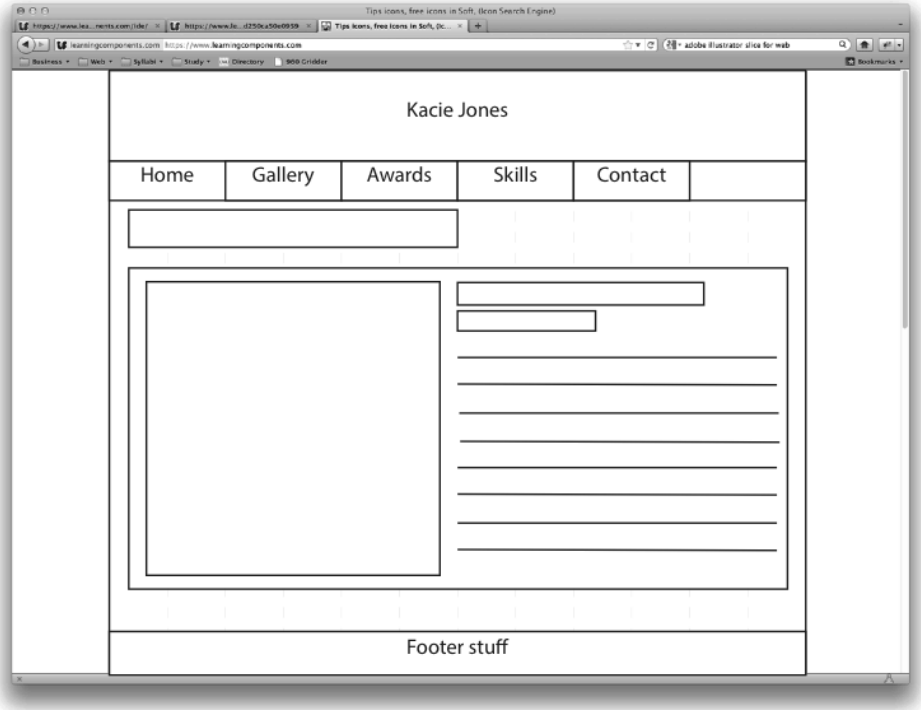


Client: Portfolio Website
Designer: Kacie Jones
Page: Gallery



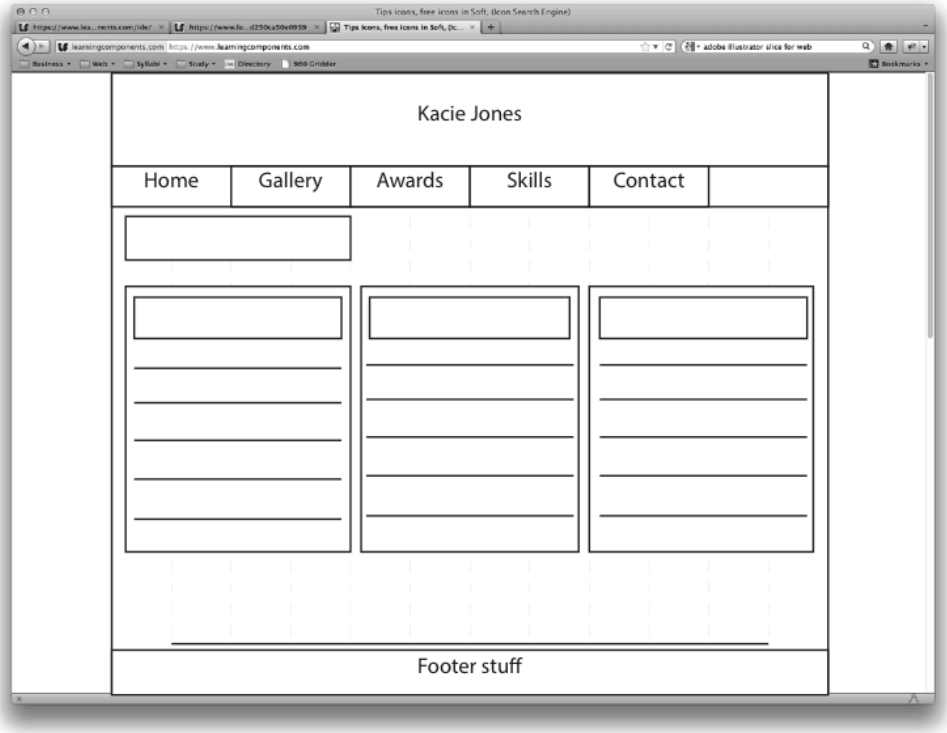
Notes: On this page you will be able to click to open a larger gallery. Show categories such as floral design, agriculture, web design, computer programming.

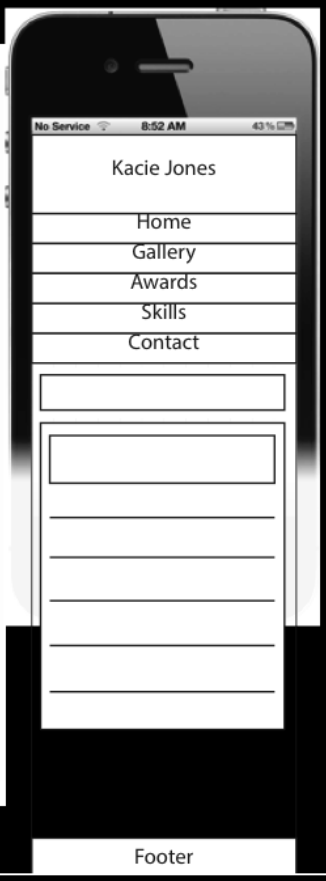
Client: Portfolio Website
Designer: Kacie Jones
Page: Awards



Notes:

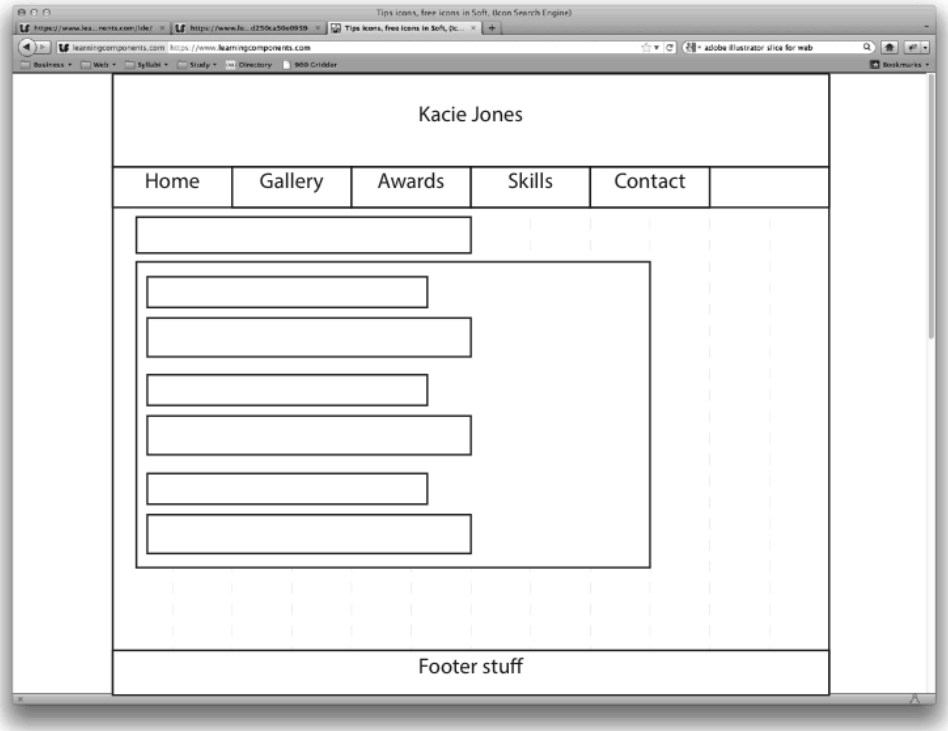
Client: Portfolio Website
Designer: Kacie Jones
Page: Skills



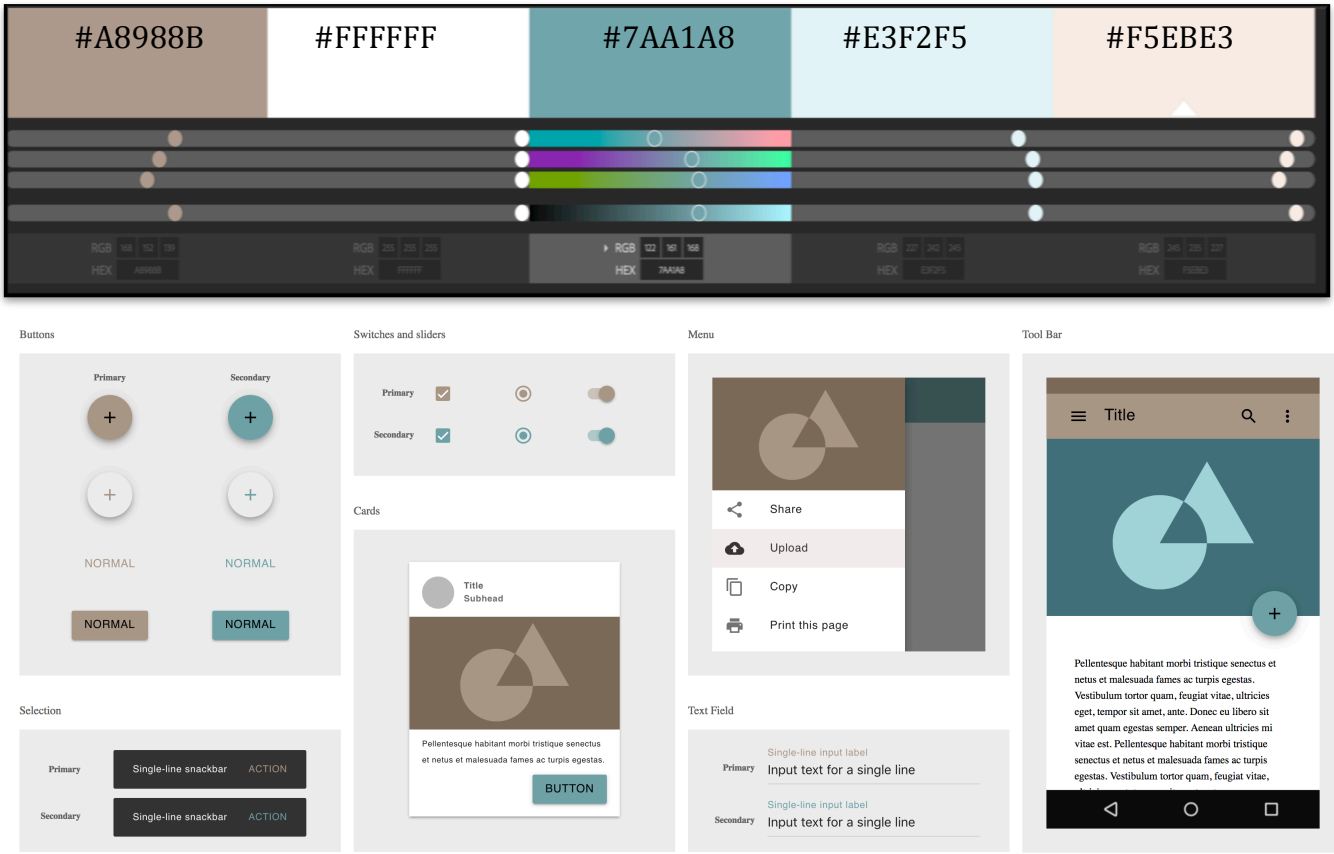


Notes:

Client: Portfolio Website
Designer: Kacie Jones
Page: Contact



Notes: For the contact page I will do one contact information card for myself, and then give two or three good references contact information.

Site Map: All of the pages will be accessible from the navigation bar. Possibly on the gallery I will have folders that you can click on an it will open a gallery that relates to that topic.


Color Scheme: For the color scheme, I wanted to do cooler colors, and I didn't want super bright colors. I will possibly even lighten the brown and turquoise color just a little bit
